About the Program

I think everyone aspires for balance in life: family, career, health and recreation, social life and environmental contribution, and spiritual life.

Having peace of mind daily, stress-less success, sustainable happiness, financial sustainability and great values to live by would allow us to live our greatest life. These aspirations were in Master Del Pe's mind when he designed this 12-day program.

A. Maximizing Performance and Balancing Your Life Seminar

This is an 8-hour training program to equip participants with life tools to measure their performance in their 5 key areas of life. After thorough evaluation of their life's priorities, participants will be guided to design their next steps strategy and chart their 5 key areas to start living their greatest life. Stress and fatigue management techniques and performance boosters will also be taught in this seminar.

B. Life Coaching Services

A series of group and individual coachings will engage participants to resolve their life's issues and blockages at a personal level, while clarifying and classifying these problems until they have clear solutions. Preventative as well as corrective measures to navigate the 5 key areas of life to prioritize the most urgent and important things that matter most will be part of the life coaching.

C. 7 Cycles of Life Course

An 8-hour training program aimed at educating participants about the hidden science of decision-making by applying the 7 Life Cycles psychology. After you have taken this training, you can never

make a decision without consulting your life chart because you will discover the best period to do the best things in life. You will also come to know about the worst timings to make big decisions in your life that can bring bad luck or obstacles. It is one of the most loved seminars and you have to experience it yourself.

D. Healing Course: BEwell Science™, Level 1

A one day training program to learn the science of energy management and get exposed to consciously balancing your energy: physically, energetically, emotionally, mentally and spiritually. Participants will evaluate their 5 Levels of Health and calculate their Total Health Quotient. The course will offer new tools for self-healing, meditation, revitalization strategies and energy balancing techniques. Participants will also learn the hidden causes of diseases not known to science.

E. 8 Types of Leaders Seminar

An 8-hour training in profiling the 8 types of people and unfolding their strengths, weaknesses, fears, blind-spots, sources of fulfillment and lessons to learn in life. This seminar will allow you to start mastering management of diversity in human relations and allow you to build high-performing

teams. It will also give you the platform to mold best performing relationships in all areas of your life. Knowing the 8 types of leaders psychology will allow you to lead all types of people and become the leader of leaders.

F. Martial Arts-Yoga

Daily training of 2 hours devoted to the development of higher will-power, focus, self-discipline, agility and self-confidence in the participants. This also includes special self-defense techniques for day-to-day safety and survival. This curriculum will help to reverse aging, boost the immune system, release body toxins and build stamina.

G. Entertainment and Recreation

Body works with massage, natural hot spring baths, nature strolls and a few outdoor sports are also a part of the Balanced Life Retreat. The magnificent view and ecosystem of the retreat location can be called the Philippine Himalayas – a combination of Tibet, Nepal and the Indian mountainous region. Thus, there is more to the splendid 360-degree view than the eyes and mind can absorb.

H. Balanced Life Kit

All participants will be offered a kit that has all the books, CDs, DVDs and guiding materials... so don't worry about knowledge retention issues. You are

expected to be in an immersion program and not a memory education trip. You can bring home the experience in your body's memory. Let the Balanced Life Kit serve the reminders and guidelines to deepen your practice.

I. Follow-up Sessions

A post-retreat group coaching session for 3 months (2 hour sessions, 2 times per month) will be inclusive of the program. This will make sure that participants are confident in their next-step strategy.
